EDUCATION AND SUCCESS

Farmer Is Essential to

CATTLE AND THE CHILDREN.

If Two Year and Four Year Old Steers Won't Thrive In Same Feed Let Why Should Children of All Ages Study

"Johnny, he ain't takin' no interest in his school. I've got a mighty good notion to let him quit an' go to work on

"How long has he been in school?" "Oh, he's been off and on about six years, I reckon. He's just finished his Fourth Reader, so he's got enough schoolin' to use on a farm. He's got ore than my gran daddy had in his day, an' you know he died worth about

"Tell me something about your grand-

"Well, you see, he come over the mountains when this here was all Virginia, an' he took some land an' began to clear it up an' farm it, an' be"-

"What did you say he paid for it?"
"Gran'daddy? Why, he didn't pay
nothin' for it."

"How much land did he get?" "Oh, he could 'a' had all he could 'tend to-a thousand acres was all he "So he farmed a thousand acres, did could 'tend to, an' he"-

"Not all of it. Some of it was left

in timber so the hogs could be turned out to fatten on the beech an' oak mast in the full. An' "-"How old were the hogs when he

"About two years of. Say, what are you askin' me all these questions for

"I am trying to find out why you

"I am trying to find out why you think Johnny has enough education to make him a successful farmer."

"I just now told you because his gran'daddy made a snug fortune with less schoolin' than Johnny's got."

"Can Johnny go out an find a thousand acres for nothing?"

"No; of course he can't."
"Can he afford to keep a hog for two years an' fatten him on beech an' oak

"No. Why, say, look here, I never thought of it before, but my gran'

ddy got rich just a-settin' still, didn't

Yes; he did. Where your grandfather got a thousand acres for nothing your boy will have to take it at a valuhe it pay. He can't wait two years for hogs to be ready for slaughter. It must be at eight to ten months. There is no way now for your boy to be a plo-neer and get rich sitting still. He must be educated to succeed in the twenti-sth century."

He Knew-He Had Fed Cattle The old trustee turned to the visitor and asked. "Well, what do you think of our new consolidated school?" "Beautiful! Cost a lot of money.

"Yep, an' it costs like amoke to run it with teachers for all the different grades. But all of us are for it now."
"Were you against consolidation?"
"Yep, I was against it strong. You see, I got the three R's in a single room schoolhouse." He paused, looked at the splendid brick building and continued: "I oughter known better too tinued: "I oughter known better too Anybody that had fed cattle for thirty years oughter know a consolidated school was better than a one room

Why should you have known? Cat "Look here—just stop an' think for a minute, will you? I've known for rty years that you can't put weanlin calves, two year an' four year of calves, two year an four year of aters in the same feed lot an get fust classes and the same lot an feedin out of the ne trough It won't work any bet ter with ch idres than it. does with

A school tex is simply a long time investment in brains; therefore the eter nal question should not be "How SMALL A TAX CAN WE GET ALONG WITH?" but "HOW MUCH CAN WE INVEST TO ADVAN' TAGE?" It is business proposition pure sud situate.
